Education

ELLIS Doctoral Program

Sept 2025 - Present

Doctoral student

- Working on Continual Learning under **Claire Vernade** and **Marlos C. Machado**

Politecnico di Milano

Sept 2022 - Apr 2025

Master of Science in Computer Engineering - Artificial Intelligence

Milan, Italy

- **Associations:** Polimi Data Scientists (Project Team Leader & Reading Group manager), Blackswan Quants Polimi
- **Exchange:** ESIEE Paris (France), Erasmus+ program
- **PhD level courses:** Reinforcement Learning
- **Thesis:** A Reinforcement Learning Approach for Health-Behavioural Recommendations to Reduce Cancer Risk. Supervised by Prof. **Francesco Trovò** and Prof. **Alberto Maria Metelli**.

Politecnico di Milano

Sept 2019 - Sept 2022

Bachelor of Science in Computer Engineering

Milan, Italy

- Member of the student representatives for the course of computer engineering
- **Exchange:** VIA University College (Denmark), Erasmus+ program

Experience

ML Cube

Oct 2024 - Jul 2025

Machine Learning Intern

Milan, Italy

- Optimization of Multi Head Weighting machines using **Reinforcement Learning**
- Engineered features from multi-sensor time-series data for process phase classification
- Applied **PCA**, **DTW**, and statistical tests to identify critical sensors and patterns
- Built pipelines for time-series decomposition, **FFT**, and feature extraction in Python
- Contributed to the design of a Reinforcement Learning-based dynamic pricing and advertising algorithm for hotel rooms
- Constructed full RL pipeline for hyperparameter selection and model evaluation using **Optuna** and **MLFlow**

University of Science and Technology of China

Jul 2024

Summer researcher

Hefei, China

- Extracted camera locations and 3D mesh from 360 head scan videos using **COLMAP** and FaceVerse
- Implemented k radial diffusion algorithm to enhance mesh points with color information from COLMAP
- Successfully applied 2DGS to the enhanced mesh points using **Pytorch** obtaining high-quality renders.
- **Findings presented in a poster showcase**

Digitiamo

Apr 2021 – Jul 2023

Software Engineer (Backend) - Part Time

Milan, Italy

- Implemented and maintained over 50 API routes across 20+ resources
- Developed over 300 automated tests using **Mocha**, **Chai** and **Sinon**, increasing test coverage to over 90%
- Refactored the relational database, reducing query times from minutes to seconds
- Contributed to the introduction of **Kafka**, which completely eliminated TimeoutErrors between microservices
- Collaborated in building **AWS** infrastructure using **Terraform** and **Kubernetes** accelerating product shipment
- Contributed to the introduction of CI/CD pipelines, reducing the deployment process from 6 hours to just 1 hour

Technical Skills

Programming Languages: C, C++, Python, R, Matlab, Java, SQL, Solidity

Machine Learning: TensorFlow, PyTorch, Roboflow, MLFlow, Optuna, OpenCV

Software Engineering: Docker, Kubernetes, Terraform, Kafka, Node.js, AWS, git

Publications

Giulio Antonio Abbo, **Gloria Desideri**, Tony Belpaeme and Micol Spitale. *"Can you be my mum?" Manipulating Social Robots in the Large Language Models Era*. HRI2025.

Gloria Desideri, Andrés Pasinetti, Alberto Maria Metelli, Francesco Trovò. *A Reinforcement Learning Approach for Health-Behavioural Recommendations to Reduce Cancer Risk*. ARLET@Neurips 2025 Workshop and WiML@Neurips 2025 Workshop.

Awards

2nd place Google Developer Student's Club AI Hack 2024

- Among the **top 5** teams of the fintech track over **150** selected students
- Built an application for financial education powered with LLMs
- Presented a **working demo** that could interpret the user's personal finance situation and give improvement suggestions as well as learning resources

First place Assosoftware Hackathon

- Built an explainable stock picker algorithm to help with the selection of stocks for client portfolios
- **Project featured in the final Assosoftware conference in Rome**

Mentee - Lead The Future

- Among the few Italian students selected to be mentees for LeadTheFuture, a leading mentorship non-profit organization for students in STEM, with **acceptance rate below 20 %**. LeadTheFuture empowers top-performing students to achieve their goals and contribute to their communities by giving them one-on-one guidance from high-impact mentors coming from the world's leading STEM innovation hubs such as Silicon Valley and CERN.

2nd Place Google Developer Student's Club AI Hack 2025

- Built an application for personalised text re-elaboration based on online learning

PoliHUB award winner University Startup CHallenge 2025

Talks

Alessandro Nuara, **Gloria Desideri**. *Online and Reinforcement Learning for Marketing and Advertising*. Polimi Data Scientists x ADCube 2025.
